

READ ME FILE

Title: Examining the Macroeconomic Costs of Occupational Entry Regulations

Authors: Joel Bowman, Jonathan Hambur and Nathan Markovski

Description

This 'read me' file details the replication files for RDP 2024-06. Firm level data cannot be provided as they are confidential unit record data contained in the ABS Business Longitudinal Analysis Data Environment (BLADE). Data for figures appearing in the RDP can be found in the spreadsheet 'rdp-2024-06-graph-data'. The 'Code' folder contains Stata's do files that are used to produce the results presented in the paper and the appendices. The Stata codes were run on Stata MP 16 (64 bit) and draw on the files in the 'ado' folder.

If you make use of any of these files you should clearly attribute the authors in any derivative work.

Data

- OER scores dataset.xlsx contains the database of OER scores used in the paper.

Code

- 01. Basic data construction: Pulls together data for analysis.
- 02. Reallocation regressions: Does reallocation regressions.
- 03. Entry exit regressions: Does entry exit regressions.
